How the Bond works

You are investing in 6 year Securities based Bond which uses your money to buy the Securities issued by Van Lanschot. The Securities are a type of debt issued by a bank. In effect the Bond is lending money to Van Lanschot (as Issuer of the Securities) for the duration of the Bond. The Securities returns are linked to the performance of the BNP SLI Enhanced Absolute Return Index (“the Index”), and Van Lanschot (as Issuer of the Securities) is legally obliged to pay the returns on the Securities.

The Issuer will be responsible for the payment of any return of capital and any investment return due from the Securities. The return of any capital and any investment return is therefore dependent on the ability of Van Lanschot to make the payments due from the Securities (see page 6). If an investment return is not payable you will receive a return of the redemption amount depending on the performance of the index. Please note that the Securities will not pay any interest during the term of the Bond. Instead, at maturity you will receive a minimum of 95% of the money you invested and you may (depending on the performance of the Index) receive an investment return. Senior debt investors have traditionally ranked above subordinated debt and pari passu (the same) with depositors in a bankruptcy.

The Enhanced Global Absolute Return Bond 4 will use monthly averaging in the final 24 months (25 observations) of the 6 year term. In the event of a significant fall in the value of the BNP Paribas SLI Enhanced Absolute Return Index during the final 24 months of the 6 year term this monthly averaging can protect the value of the investment by reducing the impact of such a fall on the maturity value of the Bond. However, in the event of a significant rise in the value of the BNP Paribas SLI Enhanced Absolute Return Index during the final 24 months of the 6 year term, this monthly averaging can reduce the value of the investment by reducing the impact of such a rise on the maturity value of the Bond.

How Capital Return is calculated?

The return of your original capital at the Maturity Date is not solely based on the performance of the Index. The product is designed to provide a full return of your capital at the Maturity Date unless the performance of the Index is negative. The maximum that you could lose is 5% of your initial capital. You should also note that the return of your original capital plus your investment return is dependent on the Issuer still being able to meet their obligations to us to pay the amounts due. This is known as Counterparty Risk (see page 6).

Index Final Performance	Payout at maturity Gross
+20%	120%
+10%	110%
0%	100%
-1%	99%
-2%	98%
-5%	95%
-10%	95%

The return of 95% - 100% capital will only apply at the Maturity Date. The 100% participation on the positive return of the Index is based on 100% of the money you invested. Should you surrender your Bond early, you will receive the price offered by the Issuer on the secondary market for the Securities (see Liquidity Risks, page 9).

In this case, it is likely that you will receive less than you originally invested.

Warning: These figures are estimates only. They are not a reliable guide to the future performance of this investment.

Warning: The value of your investment may go down as well as up. You may get back less than you invest.

Warning: If you invest in this product you could lose up to 5% of the money you invest.

Warning: If you cash in your investment before the 27th March 2020 you may lose some or all of the money you invest.

Warning: If you invest in this product you will not have access to your money for 6 years.

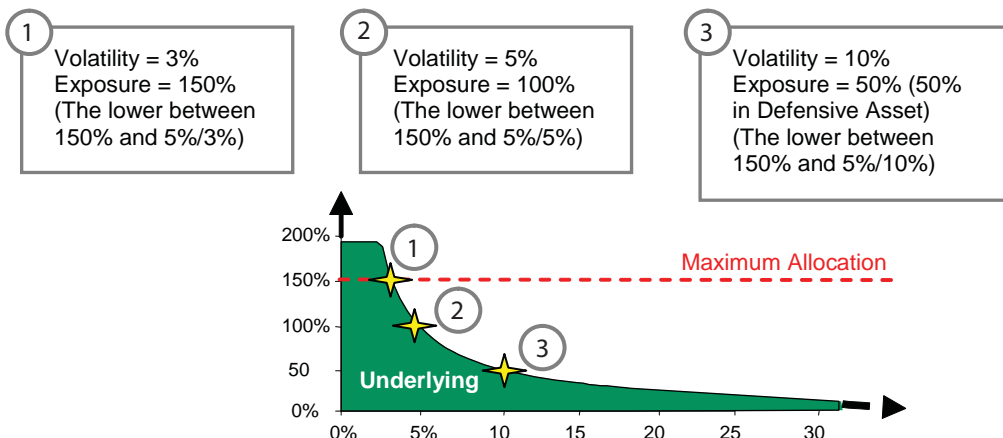

Why the BNP Paribas SLI Enhanced Absolute Return Index?

The BNP Paribas SLI Enhanced Absolute Return Index is linked to the total return performance of the Standard Life Investments Global Absolute Return Strategies Fund. It embeds a dynamic risk control mechanism in order to fully benefit from any positive trend and to provide protection during a market downturn

The strategy will dynamically adjust its exposure to the GARS fund on a daily basis, in order to maintain the volatility close to 5%:

- **Cushion against sudden market movements:** The index will reduce its exposure when volatility increases above 5%
- **Potential leverage:** The index will increase its exposure (up to 150%) when volatility decreases below 5%

Counterparty Risk

The performance of your Bond depends on the creditworthiness of Van Lanschot and BNP Paribas. It is possible that Van Lanschot and/or BNP Paribas could collapse or fail to make the payments due to us from the Securities. If this happened you would lose some or all of the money you invest in the Bond, as well as any investment returns from the Bond to which you might otherwise have become entitled.

Selection of a counterparty

One of the factors to take into account when selecting a counterparty is its long term credit ratings. These are the opinions of a range of credit rating agencies regarding the long term security of the counterparty. A high rating from one or more of the credit rating agencies is not, however, a guarantee that the Issuer will meet their obligation to pay the amount due under the Securities.

Fitch, Moody's and Standard & Poor's are independent ratings agencies that research and grade the ability of financial and other institutions to make the payments due from the Securities issued and/or guaranteed by them. By way of example, Standard & Poor's highest possible rating is AAA, followed by AA and A. These three ratings along with their BBB rating are generally regarded as investment grade (i.e. of higher quality).

All of these ratings, except the AAA rating, can also be modified by a plus or a minus to give a counterparty's relative status within the grade; for example, A+, A, A- for the A rating. Ratings from BB downwards are provided in respect of other securities. A rating outlook assesses the potential direction of a long-term credit rating view over the intermediate term. In determining a rating outlook, consideration is given to any changes in the economic and fundamental business conditions. An outlook is not necessarily a precursor of a rating change or future creditwatch action.

- Positive means that a rating may be raised.
- Negative means that a rating may be lowered.
- Stable means that a rating is not likely to change.
- Developing means a rating may be raised or lowered.

Long term credit ratings and outlook for Van Lanschot:

Agency	Rating
Standard & Poors	BBB+
Fitch	A-

5. Investment Return Condition

5.1 The Capital Protected Amount is 95% protected by the Issuer at maturity. The Issuer will enter into a financial derivative contract with BNP Paribas (the Counterparty) before the start date to generate the Variable Return if any, of the Enhanced Global Absolute Return Bond 4. Any Variable Return which may be payable is conditional on the fulfilment of the Counterparty's obligations to the Issuer. If the Counterparty or the Issuer were to default on the derivative contract before its natural expiry the return will be calculated using best market practice and no further Variable Return will be earned on the Bond. In the event of the Counterparty being unable to fulfil its obligations to the Issuer, your returns may be limited to the return of your Capital Protected Amount at maturity.

5.2 The potential Variable Return payable on the Bond will be determined on the Maturity Date of the Bond. On each Averaging Date, the Index level will be recorded and at the end of the Term the final Index level will be calculated by taking the average of the Index levels recorded on the Averaging Dates. The Variable Return will be 100% of the total amount of growth of the Index from the Start Date to the Final Valuation Date, subject to averaging as set out above. Any Variable Return which may be due will be payable on the Maturity Date.

5.3 If on the Maturity Date the Index has generated zero or negative growth, no payment will be due to you in respect of the Variable Return and potential capital will be lost on a 1 for 1 basis depending on the negative performance of the index up to a maximum of 5%.

Terms & Conditions

5.4 Please note that averaging over the Term may have a negative impact on the investment return meaning that you may not receive the maximum benefit of any gains that may be made by the Index over the Term. However, averaging over the Term may also have the effect of protecting the Investment from the full extent of any losses that may be suffered by the Index over the Term.

6. What happens if I die?

In the event of a death of a sole investor or surviving joint account holder prior to the Maturity Date of the Investment, the Investment will continue in the name of the Executor or Administrator. Alternatively, the Investment may be redeemed prior to Maturity Date, subject to normal probate legislation at its realisable value. For self directed or self administered pension Bonds, in the event of death of a policyholder/member prior to the maturity date, the investment may be redeemed at its realisable value which may be more or less than the capital protected amount. The proceeds from such a redemption would be paid to the life company/pension trust. For non insured PRSA investors, in the event of the death of a non insured PRSA investor before the Maturity Date, the Investment will continue to the Maturity Date in the name of the executor or administrator of their will according to usual probate rules. For non-insured PRSA investors, in the event of the death of a non-insured PRSA investor before the maturity date, the investment will continue to the maturity date in the name of the executor or administrator of their will according to usual probate rules.

7. Accessibility

Accessibility is provided prior to the final maturity date by the Issuer, subject to market conditions. The minimum encashment amount is notional €20,000 and investors are required to complete and signed a written instruction to encash. Where investors sell or encash their investment prior to the final maturity date the price received may result in investors receiving more or less than their initial investment. Encashment prices during the investment term can be quite volatile which reflect a number of factors which can be independent of the investment strategy. Repayment of funds may take 14 working days or longer to process. Wealth Options reserves the right to levy a fee to cover any administration and associated costs for encashments prior to the final maturity date.

8. Right to Terminate Investment

You have the right to cancel this Investment by notifying Wealth Options in writing prior to the closing date.

Investors should note that this insurance relates to custody services as provided by Redmayne Bentley only and that it does not apply to any potential losses arising from the performance of the investment. Funds are not afforded protection under the Client Asset Requirements until they are swept from the clearing account which Redmayne Bentley will use, into the individual Redmayne Bentley client nominee account. You do not have a claim against a specific sum in a clearing account; your claim is against the client assets pool in general.

10. Holding or Transfer of Client Assets outside Ireland*

Redmayne Bentley will exercise due skill, care and diligence in the selection, appointment and periodic review of any Eligible Third Party and the arrangements for holding and safekeeping of your investments but Redmayne Bentley shall not be responsible for any acts, omissions or default of any such Eligible Third Party, save where such a default is caused by fraud, wilful default or negligence on the part of Redmayne Bentley or its nominee company. Although Redmayne Bentley will seek to ensure that adequate arrangements are made to safeguard your ownership rights, especially in the event of its own insolvency, your investments may be at risk if an Eligible Third Party becomes insolvent.

11. Client Assets and Pooled Investment*

Your client assets may be held by Redmayne Bentley, or Eligible Third Parties with other clients' assets as part of a common pool so you do not have a claim against specific assets; your claim is against the client assets pool in general. In the case of pooled investments, your individual entitlements may not be identifiable by separate Notes, physical documents or equivalent electronic entries on the register and may be subject to third party claims (including claims by general creditors) made against Redmayne Bentley, or the relevant Eligible Third Party. In the event of an irreconcilable shortfall following any default of the Eligible Third Party responsible for pooled investments, you may not receive your full entitlement and may share in that shortfall pro-rata. You hereby consent to the holding of your client assets in a pooled account as described above. You acknowledge that any investments held with an Eligible Third Party may be subject under the applicable laws to a right of security, lien, set-off, retention or sale or other encumbrance in favour of such Eligible Third Party. In the case of any such pooled client account Redmayne Bentley will: i) ensure that such account is in the name of Redmayne Bentley, is designated as a client account and that Redmayne Bentley is entitled to issue instructions in respect of such accounts; ii) obtain from the Eligible Third Party with whom the client assets are lodged, acknowledgement that the account is a client account containing client assets; and iii) comply with the Client Assets Requirements regarding client assets.

16. Promotion Limitations

European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "Relevant Member State"), each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "Relevant Implementation Date") it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of Notes to the public in that Relevant Member State:

- (i) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (ii) at any time to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (iii) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive, provided that no such offer of Notes referred to in (i) to (iii) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive, or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression 'an offer of Notes to the public' in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State, the expression "Prospectus Directive" means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State), and includes any relevant implementing measure in the Relevant Member State and the expression "2010 PD Amending Directive" means Directive 2010/73/EU.

17. Complaints Procedure

In the first instance please contact Wealth Options Limited at Elm House, Millennium Park, Naas, Co Kildare. If for any reason you are dissatisfied with our efforts to resolve your complaint you may refer your complaint to: The Financial Services Ombudsman's Bureau, 3rd Floor, Lincoln House, Lincoln Place, Dublin 2 (Lo-call: 1890 88 20 90; telephone: (01) 6620899 or fax: (01) 6620890). Email enquiries should be sent to enquiries@financialombudsman.ie.

18. Risk Factors

(i) Market Risk - Investors should ensure they are aware of the risk associated with investing in the financial markets. Prices are not guaranteed and may fall as well as rise during the term of the product. Prices will be influenced by the performance of the underlying index but may also be influenced by external factors including financial, political and economic events.

(ii) Credit Risk - Your credit risk resides with the creditworthiness of Van Lanschot and the BNP Paribas. In the event of Van Lanschot defaulting, your investment in the Bond is not covered under any guarantee scheme. You do not have a direct claim against a specific sum in a clearing account or directly against Van Lanschot, as you are not the holder of the Securities. Any compensation claim will need to be filed with the appropriate liquidators or administrators.

(iii) Disruption Risk - During the term of the product there may be adjustments to the terms and conditions of the Investment due to events such as mergers, disposals and price source disruptions. In the event of an adjustment, the Issuer has an obligation to make reasonable commercial efforts, to ensure the continuation of the Investment. After exhausting reasonable commercial effort, the issuer shall be entitled, at its absolute discretion, to change the underlying companies, to unwind the Bond at the then current market value or to suspend operations of the Bond. The investment return may be lower as a result of any adjustment.

(iv) Early Encashment Risk - If you wish to exit the investment early, the price will be determined by the secondary market. The secondary price will reflect a number of factors including the level of the underlying index, volatility, time to maturity and interest rates. As a result, there can be no assurance that a selling investor will receive a price equal to or in excess of the amount initially invested. In certain market conditions there may be no secondary market price and investors may not be able to sell their holding before maturity. While Van Lanschot intends to provide a secondary market for the securities, there is no guarantee of this intended access.

(v) Tax Risk - Wealth Options are not tax advisors and recommend all investors consult their accountant or tax advisor before investing. Investment returns are paid gross and it is up to each investor to pay any subsequent tax liability and to file a tax return.
