## WHY THE GLOBAL STAR PERFORMERS BOND 8?

Given recent market shocks, it is essential that investment strategies have the capacity to adapt to brutal changes in market conditions, and consider the erratic performances of many asset classes. The Global Star Performers Bond 8 provides 85% exposure to an equally weighted basket of international funds managed by world leading investment managers. The funds in the basket are flexible funds that adapt their management styles and collectively have the following criteria:

- 🔄 **A diversified universe:** a large selection of investment opportunities (equities, bonds, credit, FX)
- 🔄 **Flexibility:** the ability to invest in asset classes and underlyings that they consider to offer the greatest potential
- 🔄 **Risk Management:** use of hedging strategies that aim to limit the performance decline in case of exceptional market falls

Combining a selection of flexible funds can improve the investment risk/return profile compared to that of each individual fund.

The Investment is distributed by Wealth Options Limited, Elm House, Millennium Park, Naas, Co. Kildare.

The Investment is a deposit for a period of 5 years and 6 months with full capital protection at the Maturity Date and also with potential for 85% participation in growth depending on the performance of the equally weighted

Basket of Funds.

100% of your initial Investment is protected by Ulster Bank Ireland Limited at the end of the Term. Whether there is any investment gain at the Maturity Date depends on the performance of the equally weighted Basket of Funds, which will be measured in accordance with the Investment Return Condition.

The Global Star Performers Bond 8 will use monthly averaging in the final 18 months (19 observations) of the 5 year 6 month term. In the event of a significant fall in the value of the equally weighted Basket of Funds during the final 18 months of the 5 year 6 month term this monthly averaging can protect the value of the investment by reducing the impact of such a fall on the maturity value of the Bond. However, in the event of a significant rise in the value of the equally weighted Basket of Funds during the final 18 months of the 5 year 6 month term, this monthly averaging can reduce the value of the investment by reducing the impact of such a rise on the maturity value of the Bond.

Neither the Investment nor Ulster Bank receives the benefit of any investment income payable on the funds. The Investment is suitable only as a capital growth investment.

The Investment is not suitable for investors who require access to their capital before the Maturity Date.

#### **4 Capital Protection**

On the Principal Repayment Date the Bank will refund your Capital Protected Amount irrespective of the performance of the Underlying Funds.

#### **5 Investment Return Condition**

5.1 The Capital Protected Amount is 100% protected by the Bank at maturity. The Bank will enter into a financial derivative contract with BNP Paribas (the "Counterparty") before the start date to generate the Variable Return if any, of The Global Star Performers Bond 8. Any Variable Return which may be payable is conditional on the fulfilment of the Counterparty's obligations to the Bank. If the Counterparty or the Bank were to default on the derivative contract before its natural expiry the return will be calculated using best market practice and no further Variable Return will be earned on the Bond. In the event of the Counterparty being unable to fulfil its obligations to the Bank, or the Bank failing to pass on those returns, your returns may be limited to the return of your Capital Protected Amount at maturity.

5.2 The potential Variable Return payable on the Bond will be determined on the Maturity Date of the Bond. On each Averaging Date, the closing level of the Underlying Funds will be recorded and at the end of the Term the final levels of the Underlying Funds will be calculated by taking the average of the closing levels of the Underlying Funds recorded on the Averaging Dates. The Variable Return will be 85% of the total amount of growth of the Basket of Funds, if any, from the Start Date to the Final Valuation Date, subject to averaging as set out above, Any Variable Return which may be due will be payable on the Principal Repayment Date.

5.5 Please note that averaging over the Term may have a negative impact on the investment return meaning that you may not receive the maximum benefit of any gains that may be made by the Basket of Funds over the Term. However, averaging over the Term may also have the effect of protecting the Investment from the full extent of any losses that may be suffered by the Underlying Funds over the Term.

#### **6 Past Performance**

**Past performance is no guarantee of future investment returns, which are dependent on future market conditions.**

#### **7 Market Disruption**

If at any time during the Term any of the events listed in sub-paragraphs (i) to (iv) occurs (each such event a "Market Disruption Event") in the form of:

This tax deduction will apply at maturity and will be made at source by the Bank. This deduction is applicable to investors who are Irish resident at maturity. In the case of withdrawals, tax will be deducted on the payment of interest made on the return of the withdrawn amount. Tax liability and other matters referred to are as applicable under current legislation, which may change, and their applicability will depend on the Investor's individual circumstances.

Certain non-residents, pension funds, charities, credit unions and companies may apply to receive returns gross without deduction of tax. Investors are responsible for providing any information or documentation necessary to confirm the appropriate tax status.
